

Prince George's County Quality of Life Index®

2016 Update Preview

Quality of Life Index® Introduction

- We are thrilled to be able to present this preview of our third Quality of Life Index®, once again examining county progress using the most important overarching indicators.
- These indicators are the ***Economy, Education, Public Safety, Health, Transportation and Parks and Recreation.***
- We'll have many additional data points when we release our next Index in March, but this should begin to paint a picture for the future of the county, using the recent past to assist us.

Education Indicators

- It was Abraham Lincoln who said, “The philosophy of the school room in one generation will be the philosophy of government in the next.”
- There can never be too great an emphasis put on the education of our young people, for they are the future of Prince George’s County, this nation and the world.

Public Safety Indicators

“Understand, our police officers put their lives on the line for us every single day. They've got a tough job to do to maintain public safety and hold accountable those who break the law.” **Barack H. Obama**

- We continue to support our first responders in their quest to deliver the finest public service in the land, and we thank former Chief Magaw and Chief Bashoor on their exceptional work in service to the people of Prince George's County.
- In the first half of 2015, that work continues to pay dividends. **Incidents of Burglary in Prince George's were down nearly 27 percent (26.8%) and Motor Vehicle Theft was down 16.9 percent from the same period in 2014. Robberies were down 10.1 percent and Aggravated Assaults in the county were down 9.5 percent**

Health Indicators

- “If we could give every individual the right amount of nourishment and exercise, not too little and not too much, we would have found the safest way to health.”

Hippocrates

- In 2007, Prince Georgians lived shorter lives than Marylanders and our fellow Americans. By 2013 (The last year of recorded data), Prince Georgians have added two years to our life spans, equaling Marylanders and surpassing Americans in general by almost a full year. We commend our health professionals and our county health agencies for spreading the message of better health and longer lives.
