DEPARTMENT
Prince George's County

What is HIV/AIDS?

- Human immunodeficiency virus (HIV) is the pathogen that causes AIDS.
- A person with advanced HIV infection is classified as having AIDS.
- 7-8% of PGCHD clients have been diagnosed with AIDS.

Source: CDC. [https://www.cdc.gov/nchs/hus/sources-definitions/aids.htm#:~:text=Human%20immunodeficiency%20virus%20\(HIV\)%20is,the%20onset%20of%20opportunistic%20diseases.](https://www.cdc.gov/nchs/hus/sources-definitions/aids.htm#:~:text=Human%20immunodeficiency%20virus%20(HIV)%20is,the%20onset%20of%20opportunistic%20diseases.)

Tackling Common Misconceptions

- It is not a death sentence as previously thought.
- Antiretroviral Therapy(ART) ensures that individuals living with HIV lead a long life.
- Undetectable = Untransmittable (U=U)
- Cannot be spread through casual contact or sharing utensils.
- Untreated STIs (especially syphilis) increase HIV risk.

HIV Exposure in Prince George's County?

Who is most impacted by HIV in Prince George's County?

237 new HIV diagnoses in 2021 increased to **258** new HIV diagnoses in 2022 in Prince George's County

Number of New HIV Diagnoses by Race

HEALTH
DEPARTMENT
Prince George's County

Prince George's County Comparison

New HIV Diagnosis			
Rank	Jurisdiction	New HIV Diagnosis Rate	Reported Cases
	Maryland	14.4	395
1	Baltimore City	32.6	158
2	Prince George's	32.3	258
6	Montgomery	12.1	107

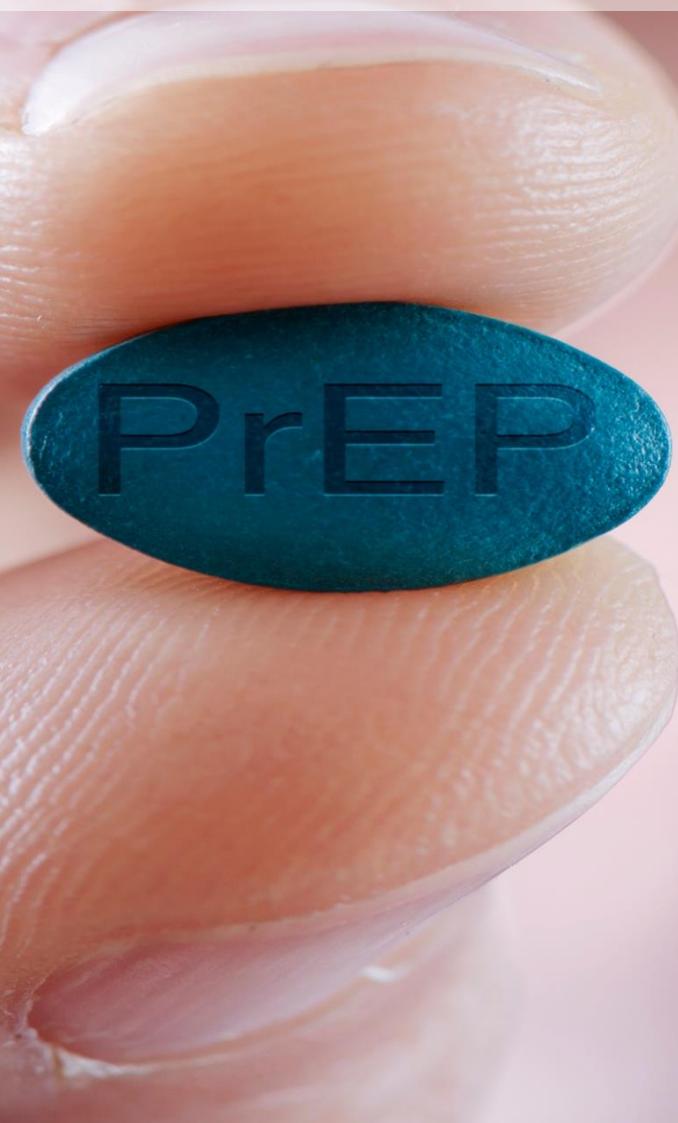

Chlamydia			
Rank	Jurisdiction	Chlamydia Rate	Reported Cases
	Maryland	535.0	32,398
1	Baltimore City	1,196.7	7,014
3	Prince George's	766.7	6,974
12	Montgomery	362.6	3,814

Gonorrhea			
Rank	Jurisdiction	Gonorrhea Rate	Reported Cases
	Maryland	199.0	12,052
1	Baltimore City	670.5	3,930
4	Prince George's	264.5	2,406
15	Montgomery	89.0	936

Syphilis			
Rank	Jurisdiction	Syphilis Rate	Reported Cases
	Maryland	44.3	2,684
1	Baltimore City	143.1	839
2	Prince George's	73.3	667
7	Montgomery	25.4	267

HIV & STIs are Preventable

- Condoms
 - Correct use prevents HIV and STIs
- Pre-exposure prophylaxis (PrEP)
 - For those who do not have HIV
 - Daily pill or one shot every 2 months
- Post-exposure Prophylaxis (PEP)
 - Must be started within 72 hours of a possible exposure
- Treat STIs
 - Get tested
 - Untreated STIs increase risk of acquiring HIV

How is the Health Department Addressing HIV?

- HIV services in the county
- Collaboration
- EHE Initiative
- Media Campaign
- Engaging the community

**HEALTH
DEPARTMENT**
Prince George's County

Collaborations

Heart To Hand, Inc.

"A heart that cares with hands to help."

Women and transgender: workforce development, linkage to care, education

LatinX, Young MSM:
HIV testing and linkage

Youth: HIV testing and education

Counseling and testing

Young Black and Latino gay, bisexual and other men who have sex with men: Peer education

Women of color, men of color, young MSM, returning citizens:
HIV testing, linkage to care.

Seniors: Living and wellness support

LatinX: referrals, linkage to care, outreach, education

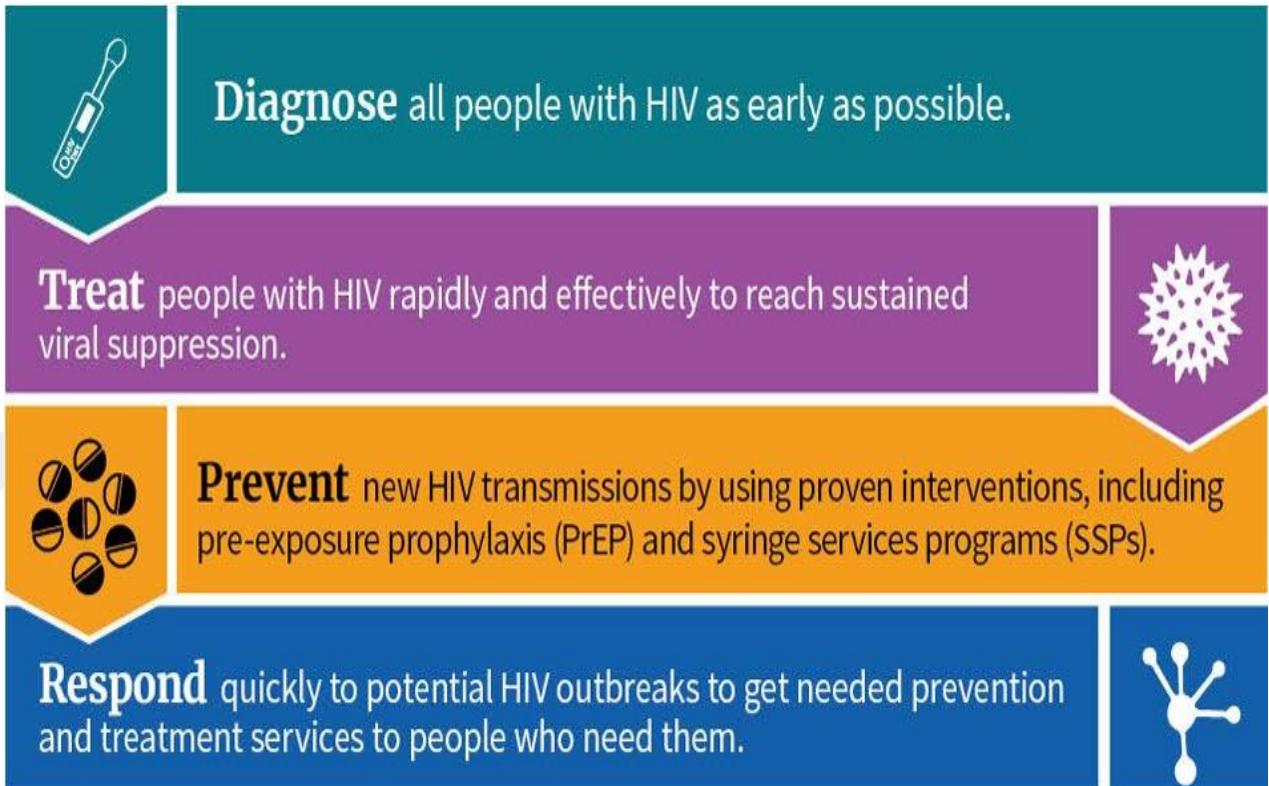

HEALTH
DEPARTMENT
Prince George's County

GOAL:
75%
reduction in new
HIV infections
by 2025
and at least
90%
reduction
by 2030.

Ending the HIV Epidemic in the US (EHE) provides resources to 50 local areas where more than half of new HIV diagnoses occur. In total, these priority areas include 48 counties, Washington, D.C., and San Juan, Puerto Rico. EHE also provides resources to seven states with a substantial rural burden.

Reducing Stigma Around HIV

-  Comprehensive education campaigns
-  Using podcasts to tell stories
-  Creating safe spaces for open conversation
-  Implementing and enforcing policies that protect against discrimination
-  Engaging public figures, community leaders, and social media influencers to champion HIV awareness.

Cancel HIV Media Campaign

- Increases awareness
- Engages communities
- Utilizes real community people in ads and shows county specific markers
- Engages residents through focused messaging

HEALTH
DEPARTMENT
Prince George's County

Campaign Highlights Since 2021

- 2022 radio townhall with radio personality Cheryl Jackson, aired on WPRS and Majic.
- Interview segments on Great Day Washington show.
- A four-part Novella type series on HIV prevention.
- Ads that feature county residents and advocates.
- Radio Interviews with Dr. Diane J. Young, Family Health Services Associate Director and other HIV experts on WKYS, WPRS and WMMJ

Message Spotlights

- Physician to physician
- Community partners' program highlights
- Promoting sex positive images
- Messages in Spanish
- Increasing visibility of the county's HIV prevention and treatment services
- Raising awareness about the availability of HIV prevention resources like condoms and PrEP
- Content that engages specific groups like ages 18-34, black heterosexual men, LGBTQ community and women.

Ep. 216
Black MSM: Navigating Being Most At-Risk

#216
Status, Behavior, and Stigma: Talking about HIV in the Black MSM Community

March 25, 2024 • 55:37

Black men who have sex with men are the demographic with the highest risk of contracting HIV, so you know we're going to talk about it. In this episode, we're joined by Mark and Zaine, who get into all the juicy details of past relationships, the do's and don'ts of disclosure, and the state of the Black MSM community in the DMV and abroad. The bottom line? 'The positive person is not the problem; the behavior is the problem.'

TransHealth (Part 1)

#207
Sharing Spaces: Unpacking the Trans Experience

January 22, 2024 • 48:26

"We want our own lane; we're not here to replace anybody." And that's that on that! This week, Tei and Malachi are speaking with Daijah Walters and Dr. Selena Dagnino about the trans community, trans health, and their experiences as trans women. If you take anything away from this episode, remember that trans women know what's best for them, and they deserve seats at the table to share that knowledge and experience with the world.

Ep. 208
TransHealth Part 2

#208
Facts and Folklore In Trans Health

January 29, 2024 • 24:25

Dr. Selena Dagnino is back to use her experience to answer all of our questions regarding trans health. Whether fact or folklore, the truth is out there, which is why it's critical to listen to trans experiences AND trusted medical specialists. We're excited to share part two of our transgender-focused episodes! This program contains language and subject matter that some audiences may find triggering or sensitive. Our purpose is to encourage engagement in care and treatment; however, please consider your well-being before continuing.
