## Property Taxes

## How are property taxes determined?

Property taxes are based on the assessed value of each property and are calculated using the tax rates and charges that are approved and adopted prior to the beginning of each fiscal year by the County's annual budget ordinance and various agencies and municipalities.

To calculate your bill: Divide the assessment by 100 and multiply that number by each tax rate listed on the tax bill. Then add any charges for the Clean Water Act fee, Bay Restoration, trash & garbage, recycling, bulky trash or any other fees that may be added if you live in a municipality.

To calculate your bill, divide the assessment by 100 and multiply that number by each tax rate listed on the tax bill.

$\$437,200/100 \times .8270 = \$3,615.64$   
 $\$437,200/100 \times .0400 = \$174.88$   
 $\$437,200/100 \times .1120 = \$489.66$   
 $\$437,200/100 \times .1346 = \$588.47$   
 $\$437,200/100 \times .0540 = \$236.09$   
 $\$437,200/100 \times .8275 = \$3,617.83$   
 $\$437,200/100 \times .0260 = \$113.67$

## Is there a payment plan for property taxes?

No, there is currently no authorization for allowing a payment plan for paying taxes.

Non-principal residence - due date is September 30th

Principal residence - first installment (1/2) due date is September 30th; second installment (1/2) due date is December 31st

However, once the annual tax bill is generated, homeowners can submit payments at any time throughout the fiscal year and Treasury will accept and apply them to their tax account, unless the account is delinquent and slated to go to Tax Sale or has already been included in Tax Sale.

(If you choose to send in partial payments, any outstanding payment due and not made by the due date will incur interest and penalty on the first day of each month following the due date.)

Ex. Annual tax bill is \$4,000.

(Semi-annual account)

**\$2,000 is due by 9/30**

\$2,000 is due by 12/31

\$200 payment made on 9/7  
\$1000 payment made on 9/28  
**\$800 payment made on 10/31**

Interest and penalty (I&P) is applied on the first day of the month after the due date at the rate of 1.667% per month.  
The I&P on the \$800 payment is \$13.34/mo.

## What if someone is unable to pay? What are the options?

We recommend the homeowner pay as much as he/she can by the due date. Interest and penalty charges will be assessed only on the outstanding balance.

We also suggest the homeowner apply for any State and/or County credit(s) for which he/she may be eligible. Specifically, the Homeowner's Tax Credit and the Homestead Tax Credit.

The State of Maryland has various programs that can provide financial counseling, financial assistance, and assistance in applying for tax credits.

**What if the homeowner passes away and the house is willed to a spouse, child or other relative?**

Property taxes are still due on the account and should be paid. Also, the new owner should properly record a new deed to transfer the property into his/her name.

# Prince George's County Office of Finance

**What happens after May if property taxes have not been paid at all?**

**Can a person still pay so the house is not taken?**

Property taxes can still be paid for the current year's delinquent taxes. The property would go to Tax Sale on the 2<sup>nd</sup> Monday in May for any delinquent balance over \$500. Redeeming the property from Tax Sale requires guaranteed funds and the full amount due. Once sold in Tax Sale, partial payments cannot be accepted. If the homeowner needs more time, there may be legal fees due in September or November depending on if the property is the homeowner's principal residence. However, interest and penalty will continue to accrue each month.
