**RESOLUTION**

This appeal is brought before the Board of Appeals, sitting as the Board of Zoning Appeals for the Maryland-Washington Regional District in Prince George's County, Maryland (the "Board"), requesting a variance from the strict application of the provisions of Subtitle 27 of the Prince George's County Code (the "Zoning Ordinance").

In this appeal, a proceeding pursuant to Section 27-229 of the Zoning Ordinance, Petitioner requests that the Board approve a variance from Section 27-442(e) (Table IV) of the Zoning Ordinance which prescribes that each lot shall have a rear yard at least 20 feet in depth/width. Petitioner proposes to validate an existing condition and construct a deck. A variance of 4 feet rear yard depth/width is requested.

**Evidence Presented**

The following testimony and record evidence were considered by the Board:

1. The property was subdivided in 1976, contains 6,727 square feet, is zoned R-55 (One-Family Detached Residential) and is improved with a single-family dwelling and driveway. The property is a corner lot with the dwelling facing the legal side street. Exhibit (Exhs.) 2, 4, 7, 8 and 9.
2. Petitioner would like to construct a 10' x 10' deck on the rear of the house. The existing dwelling is located 16 feet from the rear of the property. A variance of 4 feet rear yard depth/width was requested. Exhs. 2, 3(a) and (b).
3. Contractor Ryan Kigin explained that because the lot is a corner lot the legal rear functions as a side yard. Exhs. 2 and 4.
4. The Town of Colmar Manor submitted a letter in favor of the variance. Exh. 17.

**Applicable Code Section and Authority**

Section 27-230 of the Zoning Ordinance authorizes the Board to grant variances when, by reason of exceptional narrowness, shallowness, shape, topography, or other extraordinary situation or condition of specific parcels of property, the strict application of the Zoning Ordinance would result in peculiar and unusual practical difficulties or an exceptional or undue hardship upon the owner of the property, provided such relief can be granted without substantial impairment of the intent, purpose and integrity of the General Plan or Master Plan.

Findings of the Board

After hearing all the testimony and reviewing the evidence of record, the Board finds that the requested variance complies with the applicable standards set forth in Section 27-230, more specifically:

Due to the property being a corner lot, the legal rear functioning as a side yard, and the character of the neighborhood, granting the relief requested would not substantially impair the intent, purpose and integrity of the General Plan or Master Plan, and denying the request would result in a peculiar and unusual practical difficulty upon the owner of the property.

**BE IT THEREFORE RESOLVED**, unanimously, that a variance of 4 feet rear yard depth/width in order to validate an existing condition and construct a 10' x 10' deck on the property located at Lot 1, Block A, Colmar Manor Subdivision, being 4201 Monroe Street, Brentwood, Prince George's County, Maryland, be and is hereby APPROVED. Approval of the variance is contingent upon development in compliance with the approved site plan, Exhibit 2, and approved elevation plans, Exhibit 3 (a) and (b).
